Features

Dual skin tent

The cleverly designed dual skin tent means that your fly is always attached promoting excellent ventilation all year round.

Easy setup

In a few simple steps, you can be setup and ready to camp. Packing away is also a breeze, no twisting poles, just follow the easy step by step process.

100% Waterproof

Another benefit of the dual skin tent means that the inner tent is breathable while the outer fly is 100% waterproof guaranteed. Best of both worlds.

Compact pack size

Pack down is nice and simple and the pack size is quite compact meaning you can fit it easily into any car and easily carry it short distances.

Tunnel Tent

Having doors in both the front and back of the tent means saying goodbye to climbing over sleeping people in the morning. It also allows for amazing cross flow ventilation
